

COMPANY ENVIRONMENTAL STATEMENT

Herb UK recognises that our commitment to the customer exceeds beyond the cosmetic arena: Since our operations have an effect on the environment, we are committed to the following.

- Identifying and complying with all applicable legal requirements.
- Executing and maintaining an environmental policy within the framework of Good Manufacturing Practices (GMP) for the Cosmetics Industry, Section 5.
- Maximising the use of environmentally efficient energy resources in the production of our products.
- Reducing the environmental impact of our products through all stages of their life cycle (design, manufacturing, packaging & distribution, and end-customer use & disposal).
- Using processes, materials and other operational controls to measure, avoid, reduce and control the creation and emission of potential pollutants and waste.
- Ensuring that our staff are sufficiently equipped and incentivised to aid in reducing our impact on the environment.
- Continually striving to incorporate environmentally efficient processes and waste reduction practices at all levels of our business.
- Maintaining open communication within Herb UK, with our customers, and with the wider business community with regard to sustainable practices.

Raoul Perfitt
Managing Director
